

React Learning Roadmap

Beginner Stage

- HTML, CSS, JavaScript (ES6+)
- What is React? (JSX, Components, Virtual DOM)
- Functional Components
- Props
- useState Hook
- Handling Events
- Conditional Rendering
- Lists and Keys

Intermediate Stage

- useEffect Hook
- Form Handling
- Lifting State Up
- React Router (Pages/Navigation)
- Custom Hooks
- useRef and useReducer

Advanced Stage

- Context API (Global State)
- Performance Optimization (React.memo, useMemo, useCallback)
- Code Splitting & Lazy Loading
- Error Boundaries
- Testing (Jest + React Testing Library)
- TypeScript with React

Bonus

- Redux / Zustand / Jotai (for complex state)
- Animations (Framer Motion)
- Next.js (React framework for full-stack apps)
