

React Developer Roadmap (2025 Edition)

1. HTML, CSS, and JavaScript Basics (Prerequisite)

Topics:

- HTML5 (semantic tags)
- CSS (Flexbox, Grid)
- JavaScript ES6+ (let/const, arrow functions, promises, async/await, fetch)

Projects:

- Portfolio Website
- To-Do List (Vanilla JS)

Notes:

- DOM manipulation, Event handling, Array methods: map, filter, reduce

Videos:

- HTML/CSS Crash Course: Traversy Media
- JavaScript Full Course: BroCode

React Developer Roadmap (2025 Edition)

2. React Fundamentals

Topics:

- JSX, Components, Props & State, useState, useEffect, Lists & Keys

Projects:

- Counter App
- Weather App (OpenWeather API)
- Quiz App

Notes:

- React is declarative, JSX = JS + HTML

Videos:

- React Crash Course: Traversy Media
- React for Beginners: freeCodeCamp

React Developer Roadmap (2025 Edition)

3. React Router

Topics:

- BrowserRouter, Routes, Route, useNavigate, useParams

Projects:

- Multi-page Recipe App
- Blog Website

Notes:

- Use Link instead of <a>, Routes must wrap Route

Videos:

- React Router v6 Tutorial: Web Dev Simplified

React Developer Roadmap (2025 Edition)

4. State Management (Context API + Redux)

Topics:

- Context API, useReducer, Redux Toolkit, Redux Thunk

Projects:

- E-commerce Cart
- Auth App

Notes:

- Use Redux Toolkit to simplify state setup

Videos:

- Context API: Dave Gray
- Redux Toolkit: Traversy Media

React Developer Roadmap (2025 Edition)

5. Forms and Validations

Topics:

- Controlled/Uncontrolled Inputs, Formik, Yup

Projects:

- Signup/Login Form
- Feedback Form

Notes:

- Use onChange for controlled components

Videos:

- Formik + Yup: JavaScript Mastery

React Developer Roadmap (2025 Edition)

6. Fetching Data (API Integration)

Topics:

- fetch, axios, useEffect, error/loading handling

Projects:

- GitHub Finder
- News App

Notes:

- Always handle loading & errors

Videos:

- API in React: freeCodeCamp

React Developer Roadmap (2025 Edition)

7. Component Libraries + UI

Libraries:

- Tailwind CSS, Material UI, Framer Motion

Projects:

- Dashboard UI
- Animated Landing Page

Videos:

- Tailwind: Traversy Media
- MUI: Net Ninja

React Developer Roadmap (2025 Edition)

8. Custom Hooks & Performance

Topics:

- useMemo, useCallback, custom hooks

Projects:

- Debounced Search
- useFetch Hook

Videos:

- Custom Hooks: Dev Ed
- React Performance: Net Ninja

React Developer Roadmap (2025 Edition)

9. Deployment & Hosting

Platforms:

- Vercel, Netlify, GitHub Pages

Notes:

- npm run build, use CI/CD

Videos:

- Deploy React App: Codevolution

React Developer Roadmap (2025 Edition)

10. Advanced: TypeScript, Testing, Next.js

Topics:

- TypeScript with React, Jest + RTL, Next.js basics

Projects:

- Type-safe Todo App
- Next.js Blog

Videos:

- React TypeScript: freeCodeCamp
- Next.js: Traversy Media

React Developer Roadmap (2025 Edition)

How to Learn Efficiently

1. Code Along with videos.
2. Build small projects.
3. Push everything to GitHub.
4. Read React Docs (<https://react.dev>).

React Developer Roadmap (2025 Edition)

Optional Tools

- React Query
- Zustand
- Storybook
- SWR
- Firebase/Auth0
